2. Opportunity or challenge?
3. Role of teachers & teacher education
4. Research findings
5. Conclusion

Diversity

= Cultural differences between groups of people

- Social class (rich / poor)
- Region (rural / urban)
- Ethnicity (minority / majority)
 - Religion
 - Mother tongue
 - Racial appearance
 - National origin
- Gender (male / female)

→ Focus on **cultural** aspects

TODAY

1. What is diversity?
- 2. Opportunity or challenge?**
3. Role of teachers & teacher education
4. Research findings
5. Conclusion

Opportunities of diversity

- Innovation
- Diverse organizations perform better
- Multilingualism:
 - Cognitive benefits
 - Cultural benefits
 - Economic benefits

The data suggests diversity correlates with better financial performance.

Likelihood of financial performance above national industry median, by diversity quartile, %

Ethnic diversity

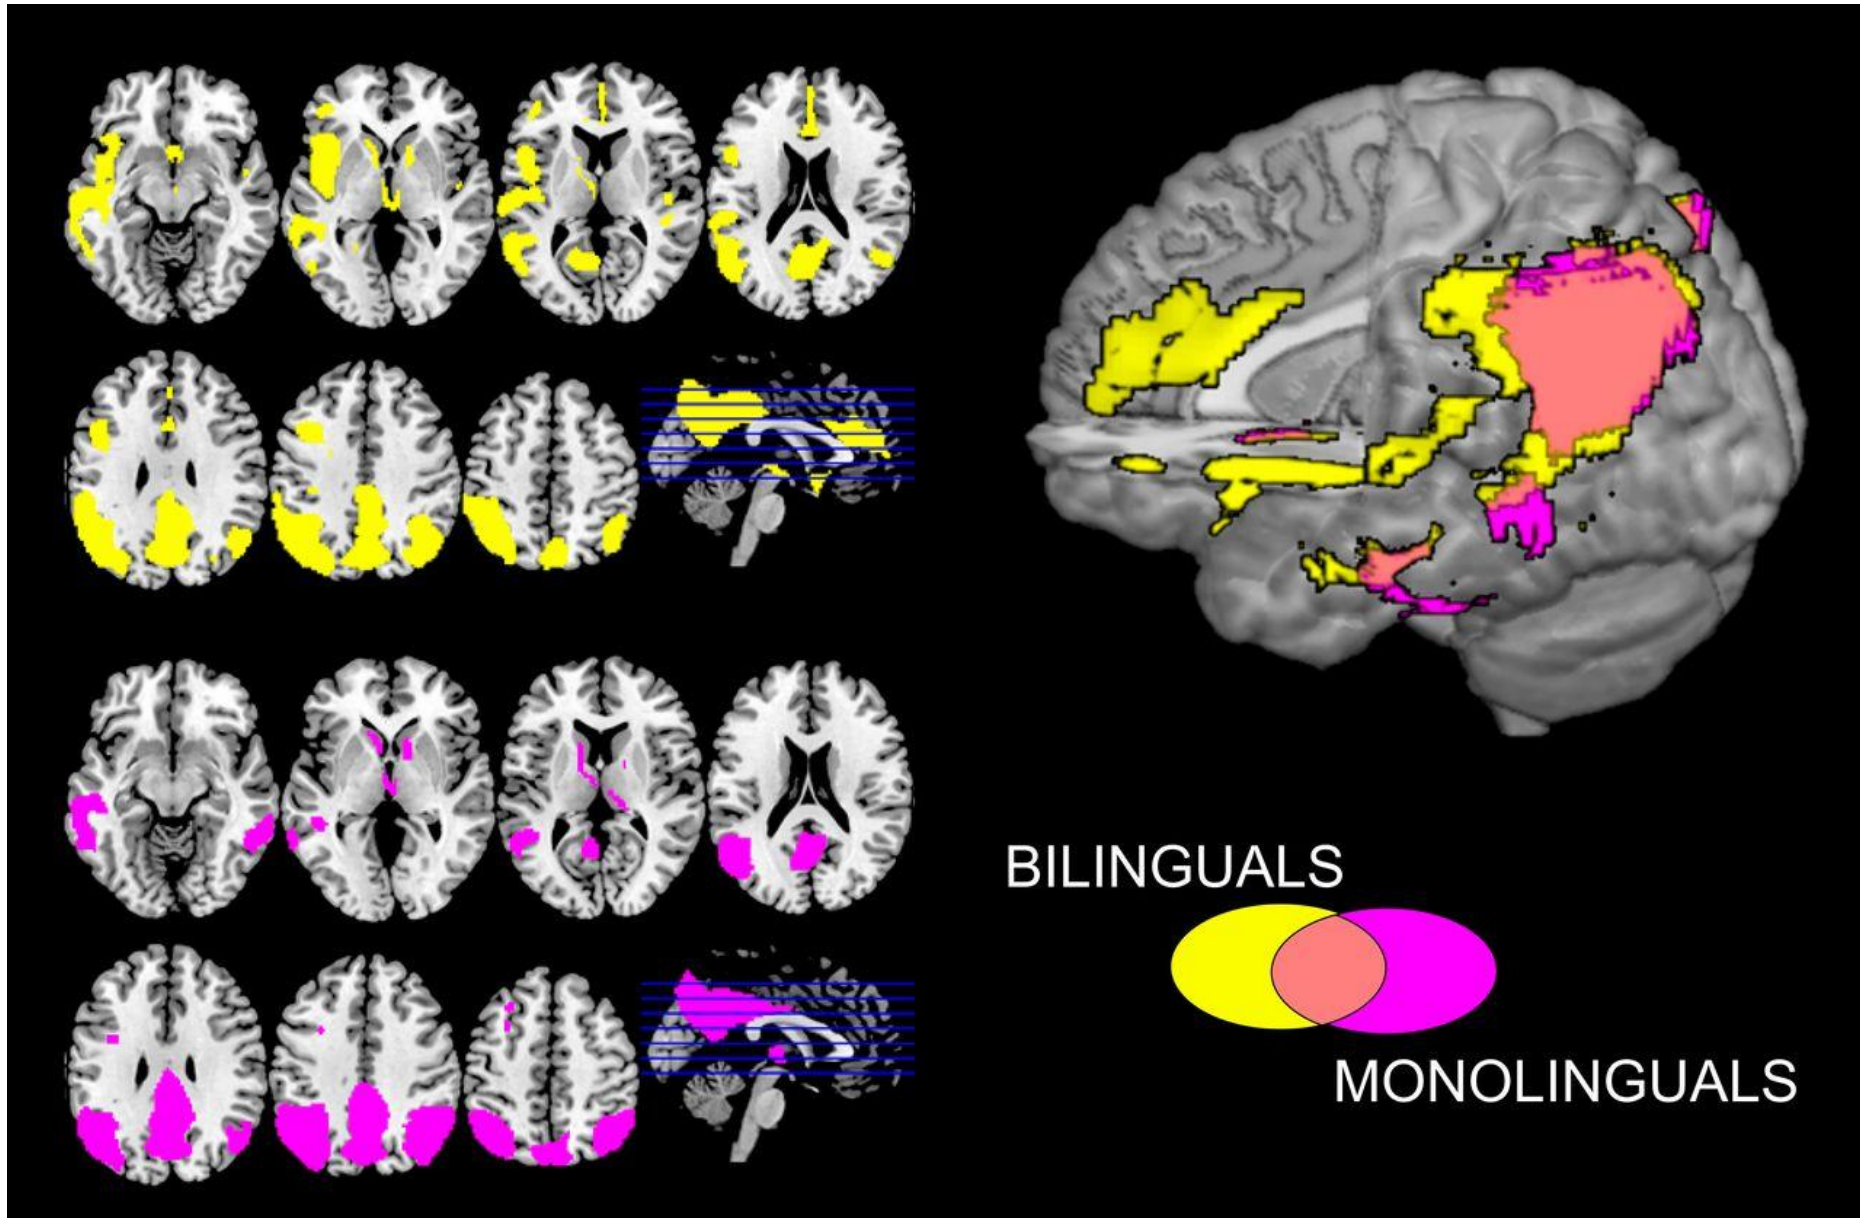

Gender diversity

Gender and ethnic diversity combined

Annual income difference for all immigrants

Controlled for: gender, educational attainment, ability, parental ses, national origin, region

Challenges of diversity

1. Societal conflict

- Religious wars
- Ethnic clashes
- Class conflict

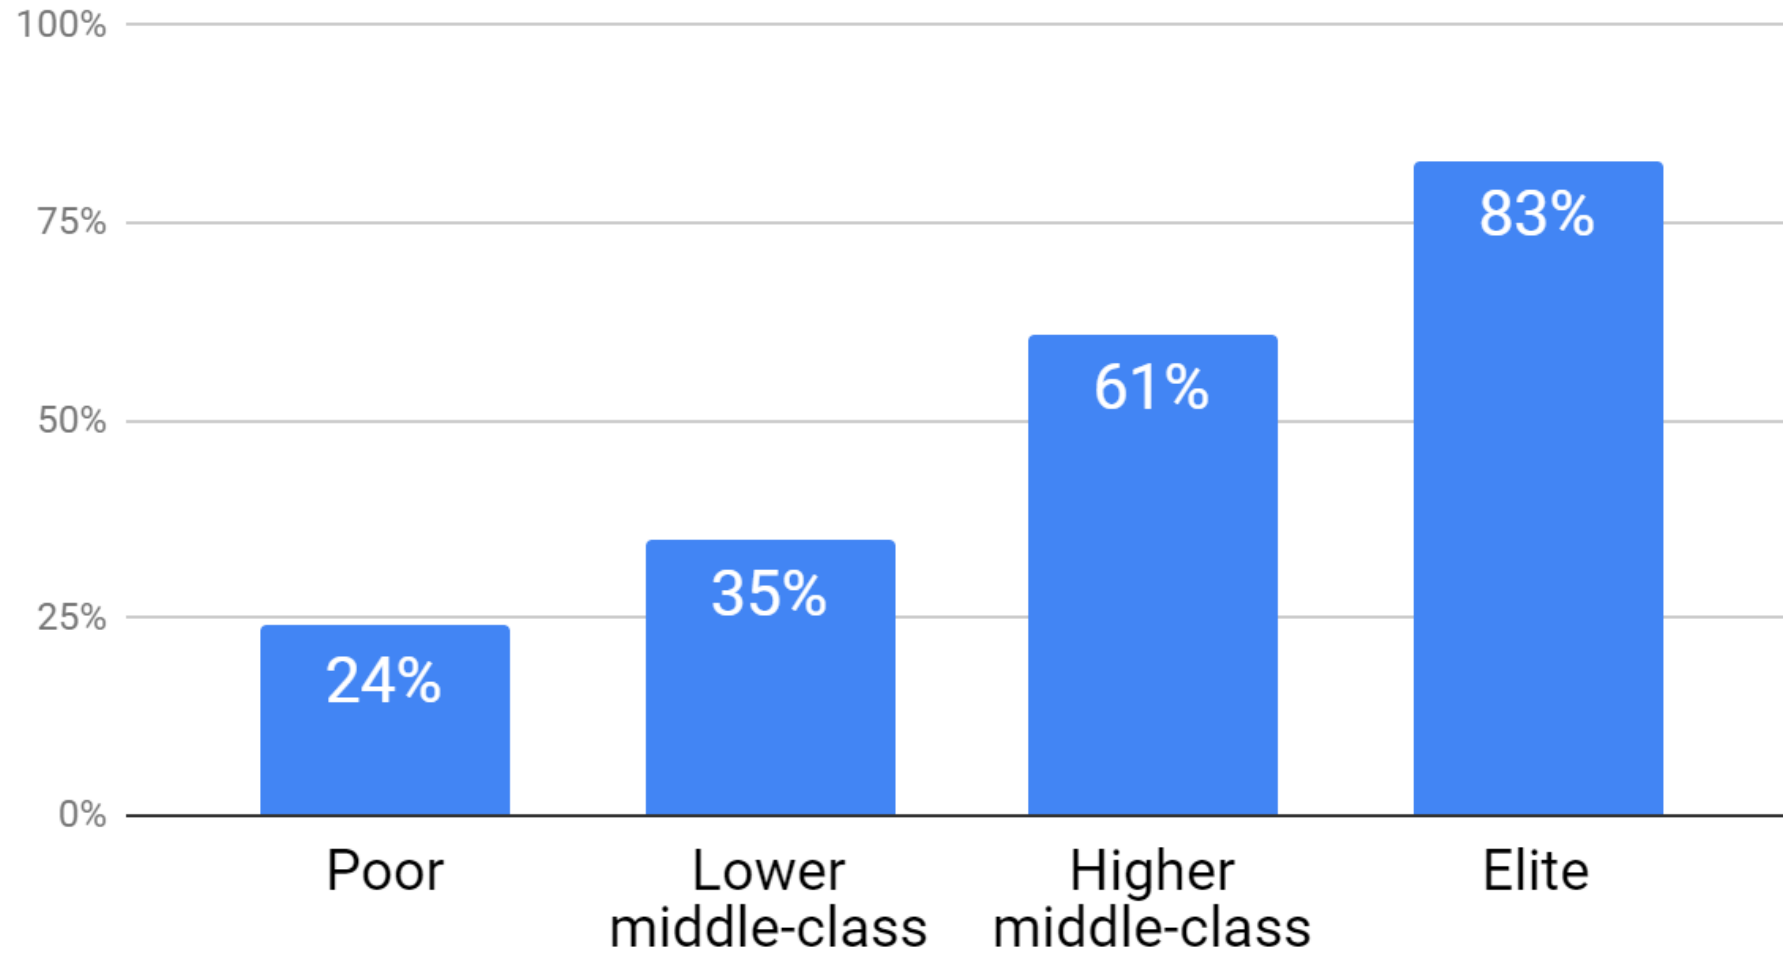

2. Inequalities in education

- Social class
- Language background
- National origin
- Gender

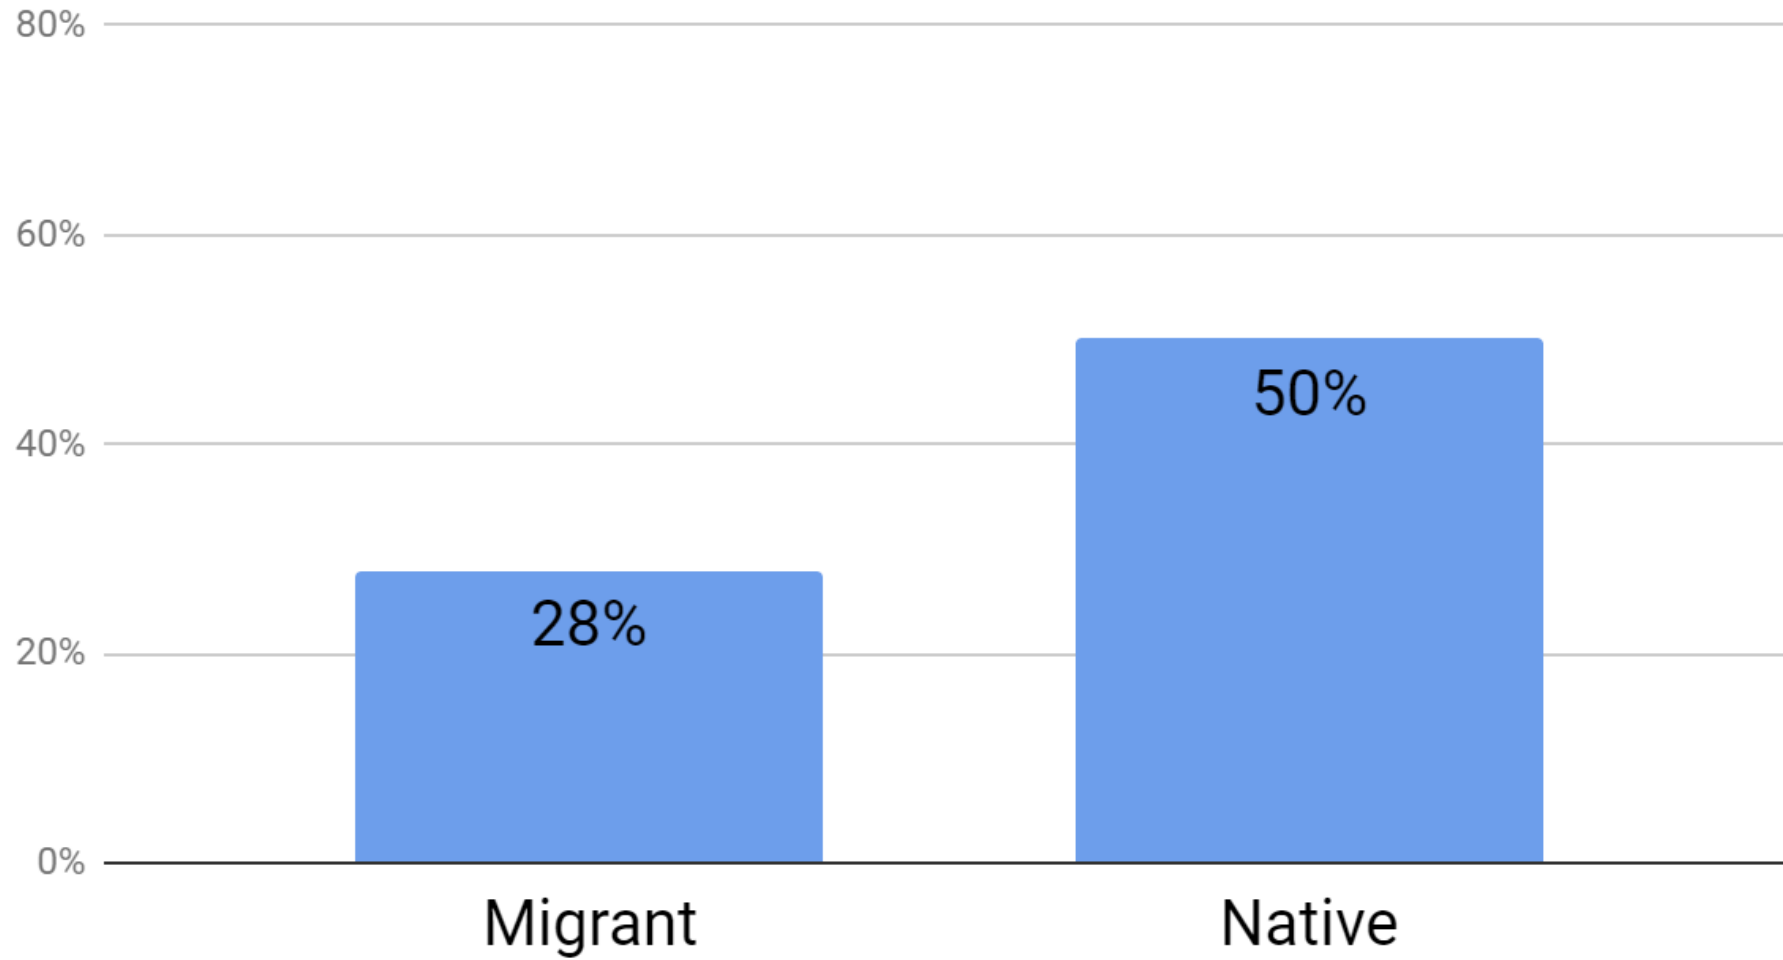

PISA 2018 data

- In the Philippines, socio-economically advantaged students outperformed disadvantaged students in reading by 88 score points in PISA 2018 (= +2 years disadvantage for poor students)
- In the Philippines, Native students outperformed immigrants students by 64 points (= + 1,5 years disadvantage for migrants students)
- = Similar levels of inequalities in Belgium

Graduation Higher Education

Pass First Year (KU Leuven data)

TODAY

1. What is diversity?
2. Opportunity or challenge?
- 3. Role of teachers & teacher education**
4. Research findings
5. Conclusion

Less inequalities in schools with:

- More diverse teachers
- High cultural sensitivity among teachers
- Less prejudice among teachers
- High academic expectations & growth mindset among teachers
- Multiculturalist & intercultural school policy
- Avoiding assimilationist & colorblind school policy

BLACK TEACHERS MAKE A DIFFERENCE

The role of pre-service teacher education is crucial in culturally diverse contexts where conflict exists. Thus, this study examined whether pre-service teachers' multicultural sensitivity can be increased through a Transformative Learning Theory-based online course. The developed course underwent expert evaluation and pilot-testing before its implementation. T-test comparisons of pre- and post-tests with 97 Filipino pre-service teachers show a statistically significant increase in overall multicultural sensitivity. While the effect size is modest based on Cohen's *d*, 84.5% of the pre-service teachers claimed to have experienced positive change. All pre-service teachers who claimed to have experienced positive change identified the individual reflection activities to have influenced their change. This study can be replicated in other contexts. The course design can be adopted, but some of the course content has to be contextualized. The findings of this study can inform both theory and practice on how multicultural sensitivity can be increased and how Transformative Learning Theory can be applied in online course design.

Research design (Belgium)

- Beliefs about student's home languages (multilingualism)
- Descriptive analyses: how are these language beliefs?
- Regression analyses: what teacher education factors matter?

Data collections

819 pre-service teachers

531 (64.8%) female

783 (95.6%) native white

Table 2. Items of preservice teachers' beliefs about students' home languages.

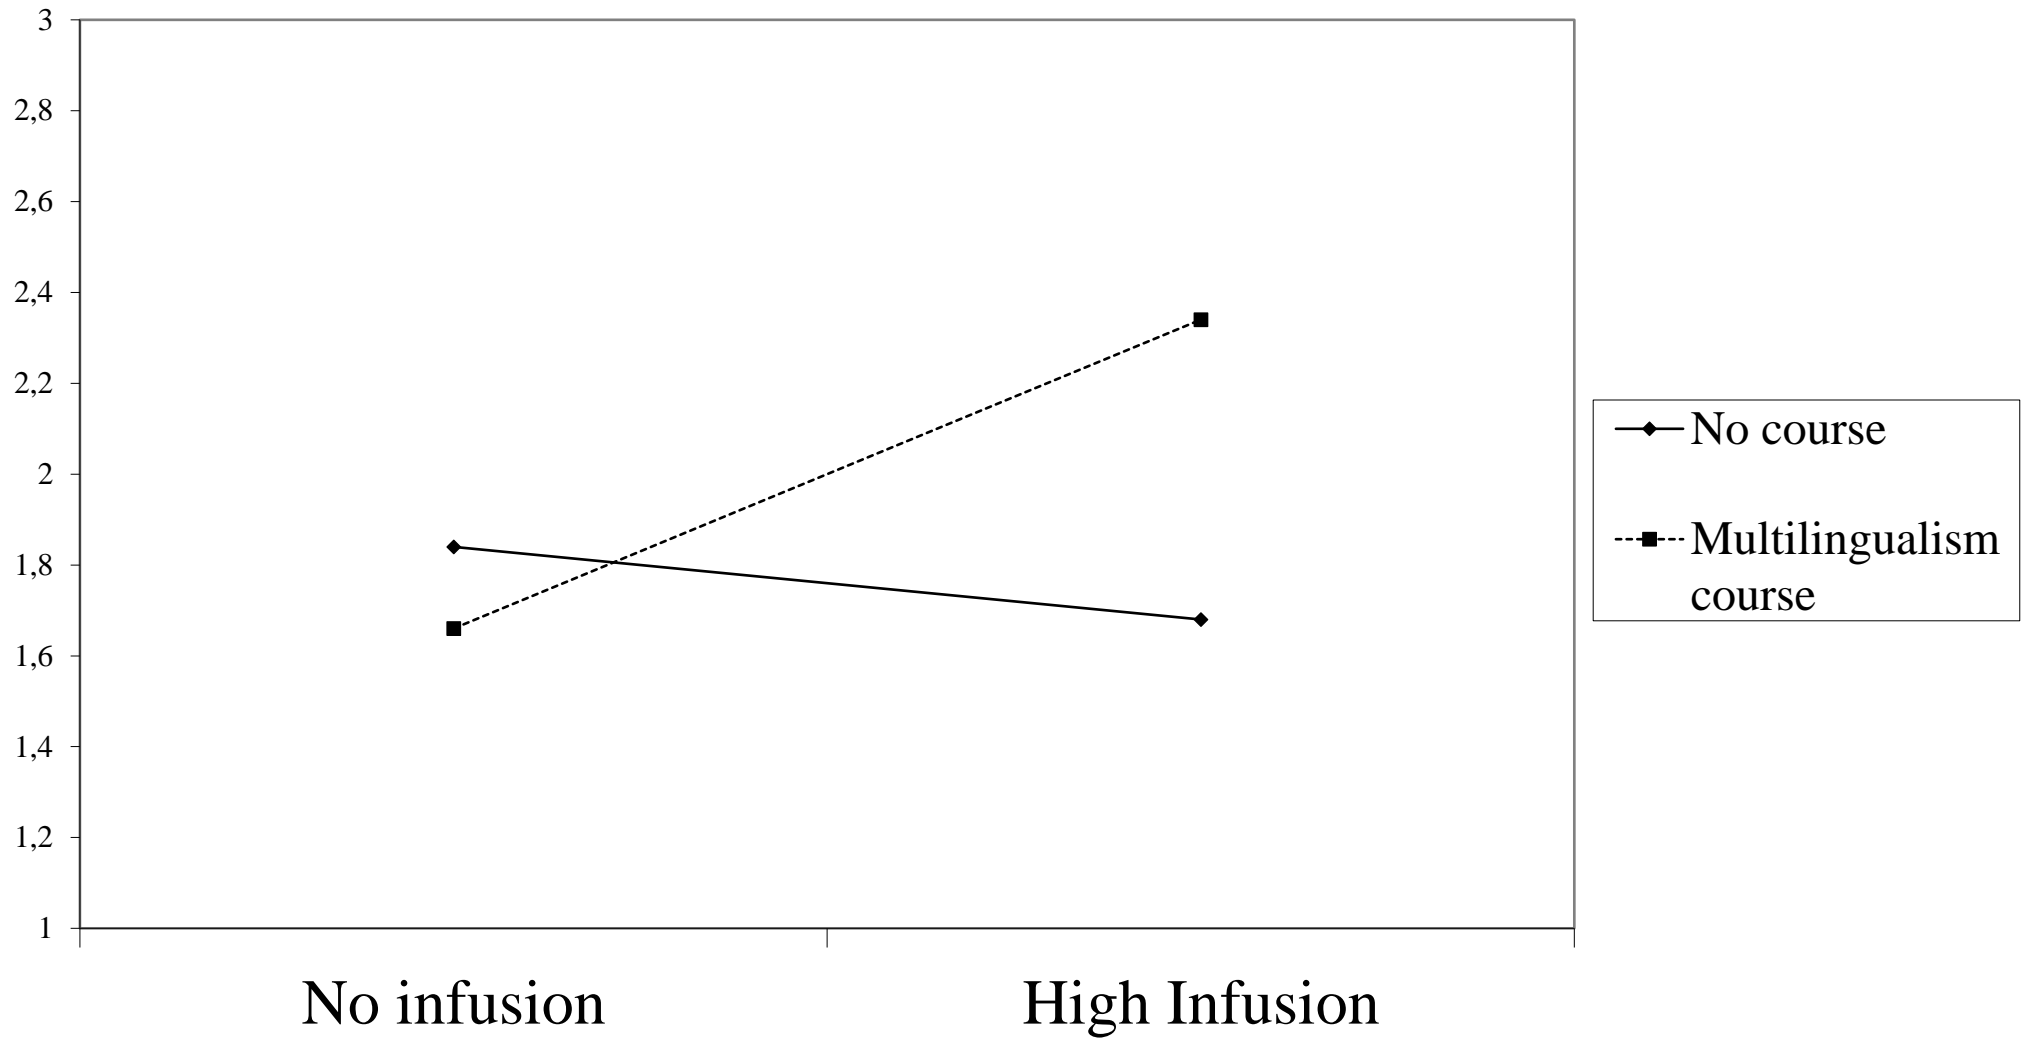

Items	M	SD	(Strongly) Agree
1. Students should not speak home languages on the playground	2.05	1.23	33.4%
2. Students should not speak home languages in the classroom	1.32	1.11	60%
3. To stimulate proficiency in Dutch, students could be punished for speaking home languages at school	2.71	1.05	12.8%
4. If students are allowed to speak home languages, other students will be excluded	1.61	1.02	46.2%
5. A school library must also offer books in students home languages	2.27	1.05	44.2%
6. Students should have an opportunity to learn their mother tongue at school	1.60	.965	15.4%
7. Schools should offer regular subjects in pupils' mother tongue	1.25	.886	7.6%
8. In the classroom, students should be allowed to help each other in their mother tongue	2.33	1.12	47.1%

Note. The percentage of preservice teachers responding "agree" and "strongly agree" is shown (N= 769, min.=0, max=4).

What teacher education characteristics impact?

- Campus intercultural contacts
- A stand-alone course on cultural diversity
- A stand-alone course on multilingualism BUT
- ONLY when there is enough infusion throughout other courses
